“ My Mother.

My mother was mother to two children myself and my sister Stacey Candace Harbison she was a Grandmother to many Grandchildren she was a Sister to Eddie Rosen and to Mickey Roden she was a sister to Margaret Roden and an Aunt to many nieces and nephews including Joshua Russell and his Brother Justin Russell and aunt to Mashae Russell. My mother also had numerous friends she adored from the Little service station she worked at for so many years and they loved her she could harmonize with me her Tenor Voiced Son used to take the High part and she would sing the low every time we heard Heart sing Nancy Wilson I sang her part and Mother Harmonized with me in the lower register she had a beautiful voice. And amazing dark brown eyes. And her perfume is a sell I will never forget ever . I can smell that sweet perfume Mother now. Forever Krystal is one you once wore and the others name escapes me right now but know this. Deborah Ann Roden, Cook -Whitworth Wife of Randy Whitworth you are unforgettable and you will always be around in all of us. 💔🕊️💙

“ *I first met Debbie and Eddie shortly after they moved next door to their grandparents in Sumiton. Eddie and I were in the same grade and Debbie put up with us listening to rock music and Eddie practicing on his guitar. They were great people and a great family. Eddie we will be praying for you and your family.*

“ *I remember at Grandma's and Grandpa's house in Moline IL a lot of fun outside in the cherry tree and inside in basement all when great grandma Stephenson was there still. It was the best time of life. We played kick the can on the street in front. Would sit on the terrace forgetting that Grandpa would come telling us not to sit there. Sympathy and love to her family, Eddie and Micky, their families as well.*
