“ *To the family , My family and I are thinking of you during your lost. I always thought that Mrs. Haywood would lived to be a 100 she one say I don't know about that. I was one of the nurses that help take care of her, and talked about things in the past of her family in Corner. I met two her uncles that live a very long life. She will be missed and I know she is with God, because she would say what a great day that will be and smile. I feel blessed to have known her. The first time she was very dry and them we found out that we knew many people that she did. she would smile when I came by her room and I would stop to talked to her. Family , the staff and myself are sending you good thoughts . Keep her alive in the stories she shared with you so the next generation will have her in their heart.. To say goodbye is the start of saying hello and meeting again. She is perfect now.*
